### WORK EXPERIENCE

- Freelance Full Stack Developer**  
2021 – Present
- Designed and delivered 15+ scalable web and mobile applications, boosting customer retention by 30%.
  - Led cross-functional teams to achieve a 40% reduction in time-to-market and surpassed revenue goals by 15%.
  - Developed RESTful APIs and microservices with Node.js, improving data retrieval speed by 50%.
  - Implemented CI/CD pipelines and containerized applications using Docker and Kubernetes, reducing infrastructure provisioning time by 60%.
  - Optimized database performance with advanced indexing, cutting storage costs by 25%.
  - Built a multi-tenant backend using NestJS, enabling secure data isolation for restaurant
  - Implemented advanced animations in React Native to enhance user engagement in a food delivery app.
- Tiva Soft Co**  
Senior Android Developer  
2021 – 2022
- Led the development of high-quality Android applications, enhancing user engagement by 25%.
  - Mentored junior developers, fostering a 30% improvement in team productivity.
  - Conducted code reviews and implemented CI/CD pipelines, reducing deployment time by 50%.
- Silver Path Co**  
Android Developer  
2019 – 2021
- Enhanced Android applications for healthcare and transportation clients, reducing app crashes by 30% and improving user satisfaction by 20%.
  - Optimized mobile app performance through direct client collaboration, cutting load times by 50% and boosting app ratings by 20%.
  - Fostered collaboration among designers and QA engineers, increasing project efficiency by 30% and achieving superior outcomes.
  - Fostered collaboration among designers and QA engineers, increasing project efficiency by 30% and achieving superior outcomes.

**Parham Kish Holding**  
Android Developer  
2018 – 2019

- Designed healthcare and transportation apps, reducing app crashes by 30%.
- Optimized app load times, increasing customer satisfaction ratings by 15%.

**Yas e Sepid Pars**  
Android Developer  
2017 – 2018

- Developed and maintained Android applications, focusing on performance and stability improvements.

## PROJECTS

### Supafo

#### Full Stack Developer

Food delivery Application with react native and backend using nodejs and express

### Expo App

#### Full Stack Developer

Exhibitions application using Nestjs for backend and Flutter for design PWA

### Sam Banyo

#### Full Stack Developer

Design Ecommerce website using Nest Js and Vue and Nuxt js

### MenaVpn

#### React Native Developer

Fix bugs and update module using inside app

### Hirad lounge

#### Full Stack Developer

Design website and admin dashboard using Expres js for backend and React and Next js for Frontend
